

# Paige Almond, DO

## Medical Resident

**Education:** Undergraduate at University of Washington, Medical School at Pacific Northwest University

**Medical Interests:** PTHA has a close-knit family feel that I was searching for. I want to become a rural full-spectrum family medicine doctor so I am excited for the diverse learning settings PTHA provides.

**Hobbies:** I love spending time with my family and friends. I enjoy cooking (especially soup or pasta), playing card games, reading mystery novels, exploring the outdoors, catching up on my favorite crime shows or cheesy sit-coms, doing simple arts and crafts, and trying new foods and drinks.
