

Jesse Brannan, DMD

Dental Director

Education: Undergraduate at University of Washington, Dental School at Case Western School of Dental Medicine, in Cleveland OH. Graduating with High Honors Residency at the VA Puget Sound Health Center, Seattle

Dental Interests: Oral Pathology and Oral Medicine. I was drawn to dentistry because it is a mix of science, art, engineering, and psychology. I also love that Dentists are able to develop important relationships over time with the patients we care for, and often their families.

Hobbies: I am married and have three children. We love to camp, play board games, card games, and travel.
